

*Thinks?*

Spreadsheets are inefficient

Current solution is poor

At minimum, new solution should guide new instructors

Attempted to map out OBA process

Confused: Didn't understand GAs, indicators, etc.

Unmotivated: Decide OBA process is not worth it

*Feels?*

Lost: Info not centralized

Uninformed: Lack of knowledge of accredited engineering program process

*Does?*

Collects incorrect data

Loses own copy of IDA map

Requests new IDA map

*Says?*

Quotes from professor's rundown

"Instructors have difficulty in fully understanding the OBA process"  
Comment: Probably universal for everyone

"IDA Map' be cray"

"Documentation is all over the place"

"Difficulty in gathering OBA data"

*Pain*

Difficult to understand accreditation process

Difficult to understand GAs for class.

poor excel sheets

Professors need a solution to properly understand the GA system and accreditation

*Gain*

The administrator needs a system to make data submission easier
